PROFILE

Passionate Agile Software Developer with expertise in both front-end and back-end development, primarily focusing on the backend. Over the past three years, I have delved into agile methodologies and Extreme Programming practices, such as Test-Driven Development (TDD), to create high-quality and maintainable software.

WORK EXPERIENCE

Claranet Italia

2021 - present

Agile Software Developer

- Gained expertise in Agile methodologies and iterative and incremental development practices, including TDD and pair programming.
- Primarily developed software on AWS using Kotlin and JavaScript/TypeScript.

Regesta

2018 - 2021
